

Nicholas Babcock
Trained Full-stack Developer

I have the skills and experience for full-stack web development roles. I've always been interested in computers and now I have the formal training to make it a career.

Work Experience

Dental Component Manufacturer at DCI International - 2018-2023

- Used AGILE methodologies like kanbans and standups
- Worked with a team to produce products for dentists worldwide
- Built complex devices according to a specification

Sales Associate at Radioshack - 2012 - 2018

- Communicated technical concepts effectively
- Solved technology problems according to the needs of end users

Training

University of Oregon Full-Stack Bootcamp

Six month intensive program with 3 full projects completed using AGILE methodologies.
